# About → Sanpravahi

sanpravahi is an art gallery. Paintings made with natural sand grains are sold here. History has shown that 100% handicrafted sand paintings can last for a long time without ever fading due to the use of natural sand grains of different colors collected from different places.

## Sand art

These are the four important art forms made of sand grains.

Sand sculptures rising on the beaches, sand animation images flickering with the help of projector lamps, bottle arts made with sand grains inside crystal glass, and wall paintings that pour color charm on canvas are some of its variants. Some of these are volatile and some are stable.

All four types of sand art are taught at sanpravahi sand art academy. It also sells sand paintings made by prominent sand painting artists of the community. We give priority to providing employment to the housewives of the society. That is why most of our artists are housewives.

# Our Highlight

We Sanpravahi (Sand painting) would like to introduce to you a Unique creation, which is created from the underground natural coloured stone sand, sea sand and river desert sand. These collections are 100% natural colourful stones and sand are taken from various places. Those stones are grinded into powder and this is the raw material of our pure handmade masterpiece creations like Black sand art and Multi colour sand art. This product is absolutely eco friendly and highly durable in colour (there is no chance of fading colour) because of no artificial colours or dyes are added.

# Our Creations

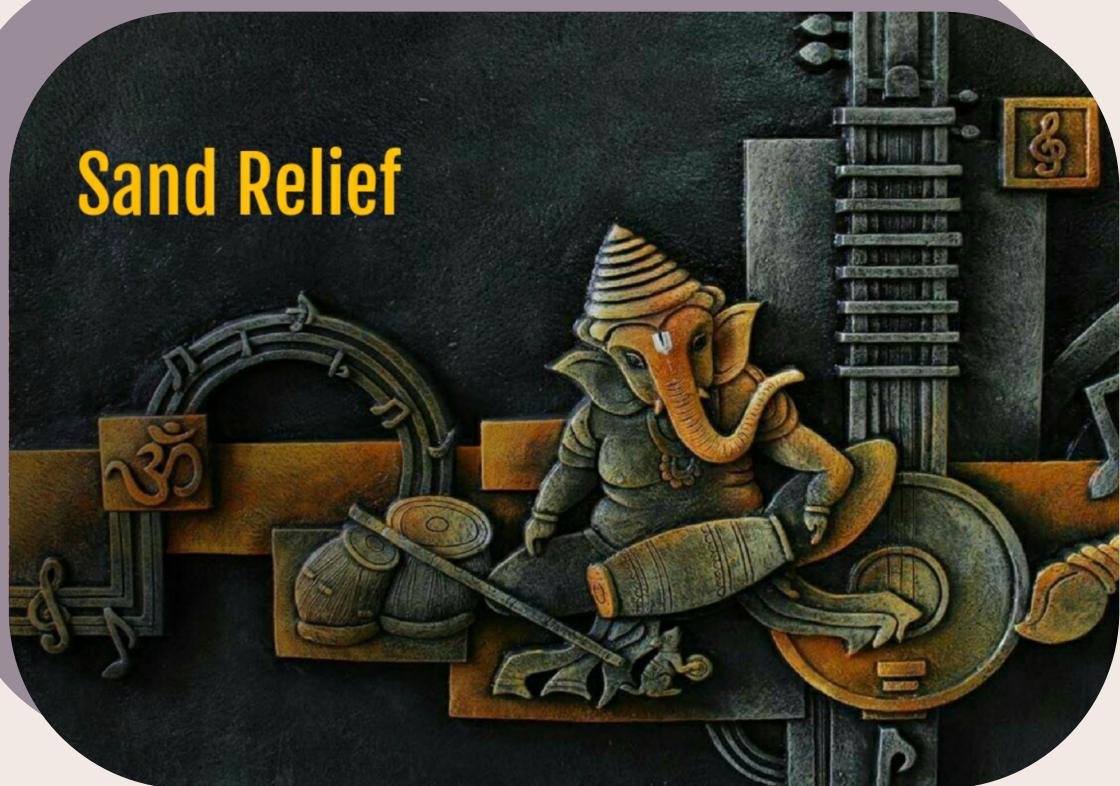

Kerala mural paintings are the frescos depicting Hindu mythology in Kerala. A special method is used for this. Mural paintings are usually created using 5 colors obtained from nature.

Sand murals are painted in the same way using different colours of natural grains of sand instead of colors. It is a premium work of art

These sand murals are used to beautify the interiors of houses

# Our Creations

Relief is a sculptural method in which the sculpted pieces are bonded to a solid background of the same material. Relief works are usually done using different mediums.

Relief works are done in Sanpravahi using sand grains. Sandstones are long lasting and maintenance free

Mainly sand relief works are done in the interiors of resorts, hotels, houses, commercial buildings etc.

## Sand Texture

Texture of sand gives an extraordinary look to your house. It is a very popular type of Texture to cover drywall. The texture has a heavy consistency and consists of grains of sand and which is bound by a water-thinned binder. The use of texture creates a roughly patterned effect on the wall.

Our sand texture available in sheet form. This is done using gum.

Therefore, it can be used in different colors and shapes.
